

CHRISTOPHER KILO

Full-Stack Developer

DeSoto, TX | christopherkilo.pro@gmail.com | christopherkilo.com | github.com/christopherkilo

PROFILE

I build responsive web apps that pair clean interfaces with practical backend architecture - Next.js, React, TypeScript, PostgreSQL, Prisma, and Supabase. CompTIA A+ certified, with an IT and design background that keeps troubleshooting and UX in the same toolkit.

SKILLS

Frontend	React Next.js TypeScript JavaScript Tailwind CSS Framer Motion
Backend / Data	PostgreSQL Prisma Supabase Auth.js REST APIs Zod
Design & Tools	UI/UX Figma Git GitHub VS Code
IT	CompTIA A+ PC diagnostics Hardware repair Networking fundamentals Technical support

SELECTED PROJECTS

Event Horizon

Next.js | TypeScript | PostgreSQL | Prisma | Auth.js

Event discovery with Auth.js, PostgreSQL, and transactional ticket holds - idempotent reservations and inventory that cannot go negative.

NovaTech Solutions

Next.js | TypeScript | HubSpot | Resend

Managed-IT marketing site with a real lead path: validation, Turnstile, HubSpot, and Resend - built for conversion, not just polish.

TaskFlow

Next.js | TypeScript | Supabase | TanStack Query

Collaborative workspace on Supabase with RLS, conflict detection, realtime invalidation, and an offline mutation outbox.

EXPERIENCE

Customer Service Representative | Circle K

Aug 2022 - Nov 2023

Supported customers in a high-volume retail environment - resolving issues quickly, balancing priorities, and collaborating to keep service quality high.

EDUCATION

Davis Technical College

Web & Graphic Design | May 2026

Clearfield Job Corps Center

Computer Technician Program | June 2025

CERTIFICATIONS

CompTIA A+ | Web and Graphic Design | Introduction to Telecommunications
Introduction to Network Cabling (Copper-Based Systems)
